

DEPARTMENT OF TOURISM

Tourism is the largest industry on earth. Within our region tourism is already an important source of foreign revenue. However, it has considerable scope for expansion and must be regarded as an industry in its infancy. Unfortunately, the potential for tourism to grow within the region may be compromised by conflicts between its needs and the needs of other rural and marine industries which are studied by UNRE students.

DIPLOMA IN SUSTAINABLE INTERNATIONAL TOURISM

This is a three year full time undergraduate course. Students can leave the course with a Diploma after having successfully completed the second year. This however depends on their CGPA.

BACHELOR IN SUSTAINABLE INTERNATIONAL TOURISM

This is a four year full time undergraduate course. Students are selected for entry into the third year of the Degree programme based on their marks in the second year of the Diploma in Sustainable International Tourism which must equal or exceed 70%. High achieving students can gain an honours degree after completing a dissertation in year four.

ENTRY REQUIREMENT: SUSTAINABLE INTERNATIONAL TOURISM

Entry requirement is a Grade 12 Higher School Certificate or equivalent grading of 'B' or better in Language and Literature; Maths A (or Maths B); Economics; Geography and History. You must have a GPA of 3.0 or higher.

DEPARTMENT OF AGRICULTURE

The department offers courses aimed at ensuring that PNG has the graduates required to guarantee a secure, sustainable supply of food, and to carry out research designed to address the problems faced by our modern agriculture industry.

SUSTAINABLE TROPICAL AGRICULTURE

DIPLOMA IN SUSTAINABLE TROPICAL AGRICULTURE

This is a three year full time undergraduate course. Students can leave the course with a Diploma after having successfully completed the second year. This however depends on their CGPA.

BACHELOR IN SUSTAINABLE TROPICAL AGRICULTURE

These are four year full time undergraduate courses. Students are selected for entry into the third year of the Degree programme based on their marks in the second year of the Diploma in Tropical Agriculture which must equal or exceed 70%. High achieving students can gain an honours degree after completing a dissertation in year four.

BACHELOR IN SUSTAINABLE TROPICAL AGRICULTURE (BRIDGING)

Students with a Diploma in Tropical Agriculture and at least a year of industry experience can apply to enter the bridging programme. This is via direct entry into the final year of the degree programme. Enrolment is competitive and subject to eligibility conditions. Must apply with an employer recommendation.

ENTRY REQUIREMENT: SUSTAINABLE TROPICAL AGRICULTURE

Entry requirement is a Grade 12 Higher School Certificate or equivalent grading of 'B' or better in Language and Literature; Maths A (or Maths B); Biology; Chemistry; Physics; and one other subject. You must have a GPA of 3.0 or higher.

SUSTAINABLE LIVESTOCK PRODUCTION

DIPLOMA IN SUSTAINABLE LIVESTOCK PRODUCTION

This is a three year full time undergraduate course. Students can leave the course with a Diploma after having successfully completed the second year. This however depends on their CGPA.

BACHELOR IN SUSTAINABLE LIVESTOCK PRODUCTION

These are four year full time undergraduate courses. Students are selected for entry into the third year of the Degree programme based on their marks in the second year of the Diploma in Animal Science which must equal or exceed 70%. High achieving students can gain an honours degree after completing a dissertation in year four.

ENTRY REQUIREMENT: SUSTAINABLE LIVESTOCK PRODUCTION

Entry requirement is a Grade 12 Higher School Certificate or equivalent grading of 'B' or better in Language and Literature; Maths A (or Maths B); Biology; Chemistry; Physics; and one other subject. You must have a GPA of 3.0 or higher.

DEPARTMENT OF FISHERIES & MARINE RESOURCES

Fisheries, the exploitation of living aquatic resources from capture fisheries, recreational fisheries, and aquaculture, make a significant contribution to the economy of PNG. The department offers courses, aimed at ensuring PNG produces graduates with the skills and knowledge required to help lead and manage our fisheries industry sustainably, and carry out research designed to address the problems faced by our modern fisheries industry. These courses are PNG's only fully integrated courses of study for students wishing to prepare themselves for a wide range of careers, within both the public and private sectors of the fisheries industry in PNG and the South Pacific Region. These include professional and technical positions in the areas of biological, environmental and economics research, fisheries regulation and management, environmental and resource conservation, aquaculture research, fish farming, fishing gear technology, seafood technology and marketing. Students gain an overall appreciation of all aspects of fisheries research, development and management.

DIPLOMA IN SUSTAINABLE FISHERIES MARINE RESOURCES

This course requires three years of full-time study. Students can leave the course with a Diploma after having successfully completed the second year. This however depends on their CGPA.

BACHELOR IN SUSTAINABLE FISHERIES MARINE RESOURCES

These are four year full time undergraduate courses. Students are selected for entry into the third year of the Degree programme based on their marks in the second year of the Diploma in Fisheries and Marine Resource which must equal or exceed 70%. High achieving students can gain an honours degree after completing a dissertation in year four.

BACHELOR IN SUSTAINABLE FISHERIES MARINE RESOURCES – BRIDGING

Students already holding an Advanced (3 year) Diploma in Fisheries Marine Resources followed by at least a year of industry experience can apply to enter the Bachelor of Fisheries Marine Resources

bridging program via direct entry into the fourth year programme for the degree. The module is subject to demand and accommodation space being available. Enrolment is competitive and subject to eligibility conditions.

ENTRY REQUIREMENT: SUSTAINABLE FISHERIES MARINE RESOURCES

Entry requirement is a Grade 12 Higher School Certificate or equivalent grading of 'B' or better in Language and Literature; Maths A (or Maths B); Biology; Chemistry; Physics; and one other subject. You must have a GPA of 3.0 or higher.

DEPARTMENT OF FORESTRY

Forestry, timber harvested from virgin forest or managed plantation, tree crops and non-timber forest products all make a significant contribution to the economy of PNG. A sustainably managed forestry industry has the potential to bring many people into the formal economy. Unsustainably managed it tarnishes PNG's international reputation, pollutes rivers, erodes road systems and impairs our ability to generate hydroelectricity. The courses offered by the department aims to produce graduates who will manage our forest resource sustainably.

DIPLOMA IN SUSTAINABLE TROPICAL FORESTRY

This is a three year full time undergraduate course. Students can leave the course with a Diploma after having successfully completed the second year. This however depends on their CGPA.

BACHELOR IN SUSTAINABLE TROPICAL FORESTRY

This is a four year full time undergraduate course. Students are selected for entry into the third year of the Degree programme based on their marks in the second year of the Diploma in Sustainable Tropical Forestry which must equal or exceed 70%. High achieving students can gain an honours degree after completing a dissertation in year four.

ENTRY REQUIREMENT: SUSTAINABLE TROPICAL FORESTRY

Entry requirement is a Grade 12 Higher School Certificate or equivalent grading of 'B' or better in Language and Literature; Maths A (or Maths B); Biology; Chemistry; Physics; and one other subject. You must have a GPA of 3.0 or higher.
